Tickets overview:

To travel locally by tram, subway or bus you need one ticket "Einzelticket Zone A" per ride. You can buy it from ticket vending machines at each station. You have to punch the ticket either on entering the platform or inside the tram - depending on the means of transportation. If you arrive by train with Deutsche Bahn, have a look at your Deutsche-Bahn-ticket: If there is printed "City +" you are allowed to use any means of public transportation within the destination city to reach your destination point.

Public Transportation from Main Station

From the main station (Hauptbahnhof) you take the subway (any line) to the station Kampstrasse (one stop) and change into the tram line 403 (to Wickede/Brackel). Leave the tram 403 at stop "Funkenburg" (four stops). There you walk down the Klönnestraße and through the railway bridge. After the bridge head left into Güntherstraße.

Public Transportation from Cityhotel

From cityhotel walk to the tram- and subway-station Kampstrasse and catch the tram line 403 (to Wickede/Brackel). Leave the tram 403 at stop "Funkenburg" (four stops). There you walk down the Klönnestraße and through the railway bridge. After the bridge head left into Güntherstraße.

When you have reached the building number 65 (has a big blue sign "MUK"), continue until you see a courtyard on the left. Walk in the courtyard and on the left you'll find the entrance of Hardware.
